SNTS-Special or Supplemental Needs Trusts

EMPOWERED INFORMED INCLUDED

What is a Trust?

- A trust is a relationship where property is held by one party (a person, an organization, a bank, a group of people) for the benefit of someone else.
- Every trust has a
 - **beneficiary**, the person that the trust is set up to support; and a
 - trustee, the person or persons who make decisions about how the money is spent.

What is a Trust?

Texas

- A trust is a <u>document</u> that gives the rules about what happens to the money or the property.
 - Is it spent or saved?
 - How much can be spent?
 - What can the money be used for?
 - Who can use the money?
- Is there property? What happens to that property?

Supplemental or Special Needs Trust

 A Supplemental or Special Needs Trust (SNT) is a <u>specially</u> <u>drafted</u> trust that allows an individual with a disability to retain assets while still keeping their <u>means tested benefits.</u>

Texas

What is a Trust?

- Think of a trust as a special place in which ordinary property that you have (money, homes, land, jewelry, other items) is "placed".
- Once it is there it takes on a sort of new identity and often is given "super powers".

INCLUDED

What is an SNT's SUPER POWER?

INVISIBILITY!!!

An SNT's super power is the ability to make assets "invisible" for Medicaid or SSI purposes.

Why use an SNT?

- Provide for your loved one after your passing.
- Manage money
- Protect public benefits while improving quality of life.
- Safeguard funds against predators and creditors.
- Child support for individuals over 18.

How to use Special Needs Trusts

- SNTs are great for financial planning.
 - Included or funded with your will
 - As a Life Insurance Beneficiary
- SNTs are great for a one time windfall of money.
 - SSI Back payments
 - Lawsuit settlements
 - Inheritance
- SNTs can be used to hold property or mineral rights.

Third Party vs. Self-Settled

Third Party Trusts

- Third Party Trusts are funded with a <u>third party's money</u> on behalf of an individual with a disability.
 - Use this with a will or life insurance policy.

YOUR MONEY FOR YOUR LOVED ONE

Self-Settled Trusts

 Self-Settled Trusts are funded with the <u>beneficiary's own</u> <u>money</u>, typically through personal injury settlements, SSI back payments, inheritances, or savings accounts.

Medicaid Payback and SELF SETTLED TRUSTS

Medicaid Payback Provision

- When the beneficiary passes away, any money left in the trust has to be used to pay the state back for any Medicaid money spent on their behalf <u>over their lifetime</u>.
- ALL SNTs established with the beneficiary's own money require this provision in order to protect benefits.

Traditional vs. Pooled

Traditional SNT

- Traditional SNTs- a person establishes the trust through an attorney and an individual or a bank serves as the trustee.
- Individual Trust Document is created for your specific needs

Pooled SNT

 Pooled SNTs- a person establishes the trust and a non-profit organization serves as the manager. The assets may be pooled for investment.

What is the Master Pooled Trust?

The Master Pooled Trust (MPT) is a pooled SNT that offers families an alternative to a traditional trust. • The Arc of Texas serves as the Manager.

- As the Manager, The Arc of Texas handles the day-to-day operations of the MPT.
- Providence First Trust Company serves as the Trustee.
- JP Morgan Chase is the Financial Administrator and Investment Advisor
 - JPMorgan handles the investments and sends the money to the beneficiaries and their families.

Master Pooled Trust

- The Master Pooled Trust (MPT) has four (I-IV) <u>MASTER</u> trusts that individuals or their families can "join".
 - The MPT has over 1700 active sub-accounts.
 - These trusts are <u>already drafted</u> and meet SSA and Medicaid's requirements for an SNT
 - <u>ALL 4</u> Trusts can help protect benefits.

EMPOWERED

Master <u>POOLED</u> Trust

- The MPT is unique because all sub-accounts are "pooled" together for investment purposes.
- By pooling all the subaccounts together, the trust is able to keep fees to a minimum.

The MPT can only accept CASH assets!

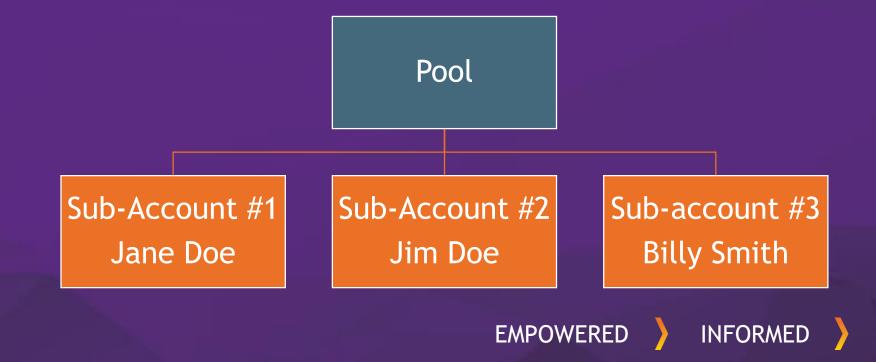

Master Pooled Trust

Texas

- Each beneficiary has their own "sub-account" within the MPT.
 - This means that the beneficiary only has access to their own personal sub-account.

Whose Money funds A Master Pooled Trust?

Trust I & Trust III THIRD PARTY TRUSTS

- Funded with a <u>third party's</u> <u>money</u> on behalf of an individual with a disability.
 - Recommended for families who would like to leave money to an individual through their will or life insurance policy

Trust III is Recommended

Trust II & IV SELF-SETTLED TRUSTS

 Funded with the beneficiary's own money.

- personal injury settlements
- SSI back payments
- inheritances or
- savings accounts

Trust IV is Recommended

Types of Master Pooled Trusts

SUPPLEMENTAL

• Trust I & II are supplemental trusts and disbursements will be made <u>only for</u> <u>supplemental needs, which</u> <u>include most items that are</u> <u>NOT food or housing costs.</u>

DISCRETIONARY

RECOMMENDED

• Trust III & IV are discretionary trusts that allow for more flexibility. If a beneficiary does not currently need to qualify for means-tested benefits (SSI, Medicaid) or is able to take a reduction, both basic support (food and housing) and supplemental payments <u>may</u> be approved.

Where does the money go when the Beneficiary Dies?

Trust I & Trust III

- The Grantor outlines in the Joinder Agreement where or to whom the funds go
 - Ex: Siblings, children, grandchildren

Trust II & Trust IV

- Medicaid gets paid back first!
- It is outlined in the Joinder Agreement where or to whom the funds go.

Remaining funds may be left to the Trust BEFORE Medicaid is paid back, but there is NO REQUIREMENT to leave anything to the Trust!
